

Run no 2259  
Location Benowa Tavern  
Hare **Sir Blackies Birthday run**  
**39 Hashmen**

The interstate travelers returned and the biggest pack in months came to the birthday boy run. The pre run huddle included hashy Birthday for the hare. Lucky we had a pub meal and the hare did not need to ration food for the large turnout. It was a point of discussion that many people turn up the week before the AGPU.

The hare **Sir Blackstump** briefed the pack in the Tavern car park and we set off on the 30 minute run and the shorter walk as the had hare described the trail ... all were on trail and somehow the 30 minutes turned into an hour for the walkers and the ever reducing number of runners.

The trail was well marked and even used some of the marks left over from **Halal's** run when he used surveyors paint for markings.

During the walk **SPV** and **Now Loved** shared their experiences and understanding of the UK real estate market, and their kids experience in buying property there.

On return to the bucket ... the back of **Sir Blackstump's** car where the crownies and snacks were served , was the designated spot for the circle, before going into the pub for a seniors discount meal.

Immediately after the birthday crownies were consumed,  
**GM Sir Two Dogs** called the final circle of his reign at 7.07 and explained the format next week's AGPU run.

**STD** called **Rainbow** out as a visitor and for holding on to 2 birthday crownies in the pre circle drink.

Run report by **Hotdick**  
Walk report by **Cumsmoke**

**RA Brewtus** was introduced and someone said this is your last chance so don't fuck it up. **Brewtus** did not fuck it up and his call for charges, created the opportunity for **Miscarrage** to call out **Rug** for wearing a turban beanie

**Rug** told a story about how the Indian men stroking the red dot ● on the forehead of their wives determines what career they will get.

**Rainbow** talked about a marble implant to explain why his Indian friend rolls his head when he is talking.

**Swollen Colon** complained that he has 200 runs and no recognition despite being given such a name by **Miscarrage** who was GM at the Musgrave Hill Dog park where he was officially named. Only took **Swollen Colon** 12 years to chalk up 200 runs and tonight he was presented with a token for his milestone achievement.

**Sir Ferret** charged **Rainbow** with owning a mobile home and never paying for a caravan park in 12 months. Currently **Rainbow** is shacked up in his mobile home at the **Miscarrage** resort in Blackstump drive Nerang. This prompted a story about a woman bashing her husband over the head with a frying pan shared by **Shat** and **SPV** as they witnessed this act outside a motorhome on the walk as they returned to the bucket. Why is it that these two witness this events from an upset wife?

**SBend** shared an update on **Brenguns** accident where did a Humpty Dumpty and fell down. He has a shoulder injury but says he has "never been fitter". I'll let you work that one out.

**SBend** also apologized to **Iceman** for his harsh words as scribe for the **Iceman** run at Paradise Point. **Iceman** was lucky to receive the bottle of port offered as compensation because **Shat** tried to take it from **SBend** as he held it over his shoulder.

**STD** called end of circle and the pack headed inside

Inside the tavern the seniors priced meals were enjoyed and the majority of hashers exited the venue about 9pm.
