Run 2228 - Bali In Paradise, Surfers Paradise ... Hare: Carefree

~ 16 November 2020 ~

A big turnout. 38 Hashers crowded outside the *Bali in Paradise* eatery to celebrate **Carefree's** 81st birthday, and also the birthdays of **Iceman** and **Big O**.

Separate trails were set for the runners & walkers, the run trail by S-Bend and the walk by Carefree. Both trails headed across Chevron Island and over the new bridge to HOTA where the trails divided.

The Run. After spitting at the lake on HOYA, the run wound its way to the racecourse, then followed Racecourse Road to Slayter Ave past **Pizza's** old brewhouse, and On On home. The runners included **Miscarriage**, **Ah Pisto**, **Brewtus**, **Bent Banana**, **Foxtrot**, **Two Dogs** & **Sir Black Stump** ... but not regular runner **Sir Botcho**, led astray by **Aussie** (... to the pub).

Bent Banana gave a brief Run Report in the circle: "A good run".

Box Brownie & **Aussie** last week joined the Nerang Covid Hash – **Box Brownie** gave an overview of the run, describing how he avoided wading through a creek by first running further upstream. *Clever eh.*

The Walk. The Hash Security Squad, led by **Kwakka** & **Hard On**, stayed behind to keep an eye on the beer. The remaining pack followed the walking trail around HOTA, then back home – 3 km shorter than the run. **Slug** gave a short Walk Report: "Some funny markings, but a good, scenic trail".

The Circle

Returning Runners. Welcome back **Croc**, **Fanny Charmer**, **Brengun** & **Sir Black Stump**.

Congratulations to Aussie on achieving 500 runs.

Charges:

- **Sir Botcho** charged **Aussie** for enticing him from the run only to lead him down the path to hell and a life of debauchery.
- **Sir Prince** charged **Miscarriage** for his routine practice of cutting SPVs grass whenever he leaves home. Last Wednesday, after a beer at Darcy's, **Sir Prince** arrived home to find **Miscarriage** in his house enjoying home comforts. Hmmmmmm.
- **Miscarriage** charged **Shat** with a 50-year old crime of unlawfully entering an entertainment venue: crawling under a security fence to avoid payment. Beware: **Miscarriage** has a way of finding out stuff.
- **S-Bend** charged **Carefree** with spreading fake news – claiming he was the oldest Hasher, however after much research **S-Bend** disclosed that indeed **Brengun** is older: 82 vs 81.
- **Brengun** in turn charged **Carefree** with losing an expensive, high quality Hash esky. Going back in time, in consort with another BH4 Hasher (**Honest Mike**), **Carefree** left the Hash esky on a busy round-about while he dined at a nearby restaurant. On returning the esky, of course, was gone.

Missing from the pack was **Flasher**. He was recently back in town, but regrettably, has now found himself back in jail - up to his old tricks. And sadly, due to Covid, he cannot have visitors, but you can call him: 0414 958 134. Cramped in isolation, he surely would appreciate your call. After successful litigation against the GC City Council, **Miscarriage** has been engaged by GC Hash to act as **Flasher's** legal representative.

A restaurant dine-in dinner for a change – nothings too good for our birthday boys.
