HASH MEDIA WATCH ( WTF -Want the Facts as opposed to TFN -The Fake News )

Over the years we have seen the mention of words like BLUE CARD and NASTY involved in newspaper headlines.

It has become common for eateries, even HAL AL ones, to serve food which has caused outbreaks of BOTULISM to diners.

We regularly see lots of ads on television encouraging us to make a purchase at RUG sales.

The Northern Territory newspapers love to tell us stories about CROCODILE attacks and then invite us to holiday there with their slick marketing C U in the NT slogan. The territory has also over the years given us a regular VETERAN visitor, the fairly recently departed DARWIN DON (RIP), the only hasher who as they couldn't root, shoot or electrocute him, so the so the ABC TV made a show about him because of his hash hardened resilient body.

Sometimes there are even stories about others who although they have long gone seem to pop up from time to time with SIR JOH and sightings of ELVIS often getting a mention. As we all know, anyone who writes stories about ELVIS still being around traps must be FULLER SHIT.

The odd story about a FLASHER wearing a large coat stalking young females often surfaces. They claim he opens his coat and exposes his erect SLUG which they say could best be described as a ROCK HARD / HARD ON , or as one victim described it as like the big dildo she had once seen at her sister's hens party. One witness who said because he got so close to her, she had to turn away to avoid giving him a HEAD JOB also said it looked POXY like he had a dose of VD. All victims agreed his CAREFREE behaviour was revolting and did nothing for them , one even saying he was definitely not a FANNY CHARMER, then cheekily conceding his SLUG was more like a BENT BANANA with a BALL BAG .

At Easter, there was a cartoon depicting a man on a cross and his comments were - I just don't get it, so they nailed me to a cross and so many people around the world eat chocolate to celebrate the event, but what the F\*\*\* does a RABBIT have to do with it. FUCK ALL is probably the answer.

It is been reported at times that the police have randomly pulled over heavy vehicles for inspection especially those those that were driven on behalf of a business known as MAD MIKES and found that the trucks often vvhad defective TRUCK TYRES and sometimes as well their driver was best described as an ARSEHOLE because when he was tested for alcohol/drugs, and blew POINT TWO, he went off his rocker as he had something like a MISSING LINK in his head. When he produced a BREN GUN from under his seat things went really ARSUP and police who initially went to

JELLY were then forced to regroup and then proceed the WRONGWAY up a one way street before apprehending after laying spikes .

As drug overdose stories at summer music festivals are regular occurrences, it was only a matter of time before the recent one at the STRAWBERRY FIELDS festival was splashed across our television screens. It seems that young music goers no longer are interested in drinking a SLAB of BREW(tus) but prefer something more lethal which can be laced with anything including ARSE NIC.

Sometimes it is shown that the Gold Coast is really a pretty small place when names of HASH aliases appear. Names/stories/letters/photos in the Gold Coast Bulleshiter regularly mention the names of notorius SWINDLER Peter Foster, Peter Burke, Don Esprey and Resident Hash Social Butterfly , Bruce Keown who it seems by evidence of many photographs never misses an invite to any hob nob piss-up either side of the BLACK STUMP. Even another amateur photographer named LATRINE got into the social reporter act by causing Mr Keown's alter ego, KITCHEN BITCH, to almost SHAT himself when undercover photographs surfaced of this hasher in let's just say, in a non-sober state at the Versace apparently doing his best impersonation of a MAGICIAN by doing some interior decorating of the hotel's furniture and fittings.

Even a fake news story made the list when a WEEKLY used the modern method of carriage known as social media to circulate a story about an upcoming singing appearance on

television of a MONTHLY. When it didn't eventuate, many disappointed viewers considered it something like a PHANTOM of the opera.

Then there was the television interview where a PRINCE in a VALIANT attempt tried to convince the world that he had a better recollection of what he had for dinner one evening than an allegation made by a young AUSSIE female who claimed he had a far different meal. The female, a minor, claims pork(ing) and lots of it was consumated by the PRINCE whom she claims she clearly remembers as acting like a real SWEAT HOG while devouring. However the PRINCE claimed he was eating PIZZA with his daughter and not consuming something else at the time of the allegation. The PRINCE just to add further confusion into this sordid matter, claimed he doesn't sweat as he has a post-military service condition which turns him into a real ICEMAN. Then another piece of the JIGSAW was a photo that emerged of the PRINCE with his arm around the young female after the PRINCE claimed he had never met her.

During the whole year, we saw the emergence of all the CAUSTIC CRUSADERS, groups of protesters who caused havoc to gain who knows what. Firstly It was invading farms to complain about farm yard animals farting and then when farmers had to sell their herds to abattoirs due to the ongoing drought, they turned their attention to animal cruelty issues because the animals end up as food. They then moved to cities and tied up valuable police and emergency services blocking traffic as people tried to go about their normal day to day activities. Meanwhile as Australia started

to burn, they demanded action on bushfires where the number one priority is to get them under control, however none of them have put their formerly glued hands up to assist the volunteer fire fighters or even give the poor animals like koalas and KAWAKKAs a drink of water as they struggle with the fires/heat. Has this been substantiated BS or what when ambulances and fire trucks have been delayed by their antics ?

However they all pall into insignificance compared to an article under the heading of - Softening Bestiality Penalty Draws Fire .

This recent newspaper article mentions names a Byron Bay BOUNCER who was charged with 221 offences, including having sex with TWO DOGS, not once, not twice but 19 times during a seven-year spree of deviant behaviour. He told police that he had EXCELlent PETs who he NOW LOVED more than anything. He further added it would be near impossible for him to have committed the alleged acts because of his DICKY KNEE and his recently diagnosed SWOLLEN COLON.

The defendant pleaded not guilty and claimed it would be a MISCARRIAGE of justice if he was convicted as none of the alleged victims had ever actually complained to authorities and the prosecution's case was not based on direct evidence but was purely circumstantial.

Corey Bernardi ,the former SA Senator has recently retired, otherwise he would be screaming from the rafters in the Senate - I told you so - after he was mocked for mentioning

that allowing changes to the Marriage Act, would encourage Bestiality with people having sex with their farm animals and pets, during the Same Sex Marriage debate in parliament. An active user of social media who regularly writes under the well-named pseudo of BALLPOINT is mourning the loss of his mentor from the Australian political landscape.

## BREAKING NEWS

The glossy MAGGS which report on entertainment news has a story under the headline - Chris Cornell' s widow is suing. WTF - His what ? I just happened to have breakfast with him. Apparently thousands of dollars in royalties are alleged to be owing to the late former band's (Soundgarden) frontman family. Wow, what a relief, Obviously there must be another one with the same name , I suppose it's a bit like pets like having TWO DOGS or even two Ferrets with the same names..

## ACKNOWLEDGEMENT

Thank-you to all members of the hash family, past and present, for your wonderful names without whom none of this report would have been possible.

On On to a Merry Christmas and a Happy New Year
