

# Brisbane Valley Rail Trail

13-16<sup>th</sup> October 2020

## Hardy Hashmen brave Magpies, Rocks, Heat and Dust

A band of Hashmen and some partners ventured to Esk last week to tackle the BVRT. This trail, using a disused rail line from Yarraman south to Wulkuraka just north of Ipswich has been improved recently but is still a challenge to recreational riders.

Our group took 3 days to complete the complete Trail from our Esk base.

Many stories unfolded.

However, as you may be aware, what happens on the BVRT stays on the BVRT.

However the pictures below give you a small window into the goings on.
