

## GCH3 Run# 2264 Report

Hare: **Sir AH**

Location: **Lions Park, Mudgeeraba**

Arrived at Lions Park to find hashers milling around for GCH3 Run 2264 or was that Covid Run 70 with a good turn-out of Covid Hashers including **Arsenic**, **Derrolicked**, **Pepe**, **Y2KY Jelly** and **Ballbags**.

At 6pm, GM **Commander Head** called the pack to order and **Sir AH** gave the instructions for the run and walk. The runners and walkers headed off across Mudgeeraba Road carefully avoiding traffic, then into Regency Place and Cobai Drive before the run/walk split. The walker's trail then continued to Hinterland Drive, into Railway Street passing the Wallaby Bob Hotel and First Choice Liquor before heading back across Mudgeeraba Road to Lions Park for a total distance of 2.85km. The run managed to find a bit of new territory in a well hashed area including a creek crossing. **Botcho** measured the run at 5.4km. Back at the run site **Sir AH** had put on now free birthday beers (VB). **Commander Head** assisted **Sir AH** with the preparation of fried onions for the main course.

**Sir AH** announced entrée which was a tasty pumpkin soup with a touch of chilli. Quite a few wen back for seconds. Main course was burgers with Coles meat patties and sausages, fried onions, beetroot, pineapple and salad greens on a choice of rolls with **KB**, **Kwakka** and **Foxtrot** assisting with the cooking duties. Dessert comprised a variety of tarts, almond pies and biscuits.

GM **Commander Head**, dressed in a vintage Olympic tracksuit, called the pack to order and welcomed the assembled crowd. Covid hashers were welcomed and the hare **Sir AH** and **Ballbags** called into the circle. **Bent Banana** and **Brewtus** had run with the Covid hash on the previous Tuesday where the runners had come in around an hour and **Ballbags** after 3 hours. **Arsenic** the Covid Hash GM was called into the circle.

**Arsenic** gave the run report where he noted that **Pepe** had tried to impress the girls on the netball courts with his lifted knee action. He also reported that the run went through some marshes and to look for mud on the runner's shoes to see if they were on trail. **Sir AH** noted he had set the run during daylight hours. **Arsenic** gave it a 7.5/10. **KB** gave the walk report noting it was his first outing in three and a half years. He rated it an 8.5/10. **Fuller Shit** had put his faith in his mobile phone to find the way back to the start.

Nosh was initially rated at 2.75/10 however everyone thought that was a bit harsh (maybe that should be 2.75 de-merit points.)

As RA **Shat** was missing in action in Brisbane, **Magician** newly returned from his latest travels stepped into the breach.

Hare **Sir AH** was called in for a Down Down.

Charges were called from the circle.

**Miscarriage** was called into the circle by SPV who related an 'emerging elder' story about his Beaudesert real estate. Story involved the discovery of 'stone tomahawks' on site and the hire of local indigenous people to check for further relics prior to sale. Seems instead of a couple of people, 30 showed up to look for 'flint axes' at \$50 per hour. Hopefully the money from the sale goes into the bank this Friday. **Miscarriage** also had an issue with a 35 tonne excavator demolishing a neighbour's fence with a swinging boom. Down Down for **Miscarriage**.

**KB** was charged for parking in the GM's Ford Ranger. Also charged for the grass burning episode at next week's run venue. **Foxtrot** noted that the Hash had made a small donation to appease the cricket club. Down Down for **KB**.

**Magician** also noted that the GM was being deprived of gifts by returning overseas hash travellers. He presented a chalice courtesy of his visit to the Bedourie Camel and Pig races.

**Magician** then proceeded to display the various assorted items that he had been presented with to cope with a shoulder injury - shoulder support strapping, pain killers of various kinds, stool softener tablets, Viagra tablets.

### Prick of the Week

The current holder **Hard On** was called in to the circle. Due to his haste to get to the run he had neglected to bring it along.

The names of several candidates in contention were thrown around for consideration.

- **Shat** for giving the finger to other hash riders
- **SPV** for conducting an unsafe work site resulting in **Hard On** cutting himself
- **VD** for cutting back from one bottle of wine a night to half a bottle with a subsequent effect on the economy
- **Magician** for exposing the naked bodies of Brazilian women on his mobile phone to the general public

To be awarded next week.

On Sec **Slug** was called to give an update on coming events:

Mackay H3 40 Years of Hashing - 24<sup>th</sup> to 26<sup>th</sup> September 2021.

Gympie H3 40 years of Hashing - 8<sup>th</sup> to 10<sup>th</sup> October 2021.

Aussie Nash Hash Adelaide remains on track for November 2021 currently.

Details of these and other upcoming runs can be found on the Queensland Hash page:

**[www.qldhhh.com.au](http://www.qldhhh.com.au)**.

**Botcho** aka Ipso Facto reported no issues.

Late charges from the circle:

**Miscarriage** against **Fuller Shit**. **Fuller Shit** had bought along some fancy locks. He said that **SPV** should have bought them earlier and not had his bike stolen.

The GM noted that as Brisbane has won the 2032 Olympics, any young Covid hashers with telepathic abilities should advise the rest of us what it will be like.

**SPV** reported that a certain Mr Tibbett had toured around **Miscarriage's** Gilston development where **Rainbow** had advised on sanitary arrangements and the view from his caravan, seems **Rainbow** has been studying the geometric relationship between his member and Q1.

**S Bends** presented **Rainbow**, **BB** and **Rug** with Gold Coast Hash foot stickers.

Down Downs followed for **Rainbow** and **SPV**.

Next Week's Run

Fare: **Foxtrot Oscar**

Venue: Cricket Club, Cheltenham Oval, Cheltenham Drive, Robina

Hash Jokes.

### **Ballbags**

Great joke about the champion bagpipe player called to play at a mate's funeral. Got lost following his GPS on the way and ended up showing up at 2.30pm for a 11.00 am funeral. Looking around he found four blokes burying a cement casket in the ground. Thinking he was serenading his mate on his final journey he played for hours. The guys were duly impressed and one remarked that in his twenty years of installing septic tanks he'd never seen such a thing.

### **Rainbow**

Another great joke about the time that Prince Charles was invited to open the Mudgeeraba netball courts. He showed up wearing a fox hat and was asked by the Mayor why he was wearing one when foxes were such a pest. He replied that he had asked 'Mummy' what he should wear to the opening of the Mudgeeraba netball courts and she had replied "Where's the Fucks That" aka "Wear a Fox Hat".

The GM called on the hare to close the circle.

Never let the truth interfere with a good story.

On On,

**Slug**
